

Learning Can Be Fun!

Bingo

From Target (\$9.99)

For Ages 4 and Up

Description: In bingo, players listen and match number names to the numerals. The game is simple, so differing skill levels can play together. Games can be fast paced and fun.

Your kids could practice and learn:

- Number identification
- Match number names to numbers

Wooden Number Puzzle

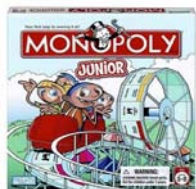

From Target (\$9.99)

For Ages 2-5

Description: The See-Inside Number Puzzle introduces the numbers and number quantities of 0-9. A colorful picture under each piece shows the same number of items as the numeral on top of the piece.

Your kids could practice and learn:

- Number recognition
- Counting skills

Monopoly Junior

From Toys R Us (\$14.99)

For Ages 5-8

Description: Own your own piece of the amusement park with this introduction to the world's most popular board game. Travel around the park. Buy sites. Set up ticket booths and collect money from anyone who lands on them! The player with most money at the end of the game wins.

Your kids could practice and learn:

- Counting
- Adding and subtracting

Learning Can Be Fun!

Scrabble Junior
From Toys R Us (\$14.99)
For Ages 5-10

Description: The game is similar to the regular Scrabble, but with pictures! Your kids can use letter tiles to form words on the game board. The catch is that there are different pictures on the board so your kids will be able to make words that match the objects.

Your kids could practice and learn:

- Basic spelling skills
- Recognition of words with the objects they represent
- Word meanings

Super Why ABC Letter Game
From Toys R Us (\$19.99)
For Ages 3-6

Description: In this game, the game piece that you choose will be a Super Why Hero! Spin the spinner and move your character based on what number is on the spinner. When you get to a character card, the card will have a fun and challenging question for you to answer, but which will teach you skills that involve reading, matching, letter learning, etc.

Your kids could practice and learn:

- Letter recognition
- Rhyming
- Basic reading skills
- Word and sentence comprehension

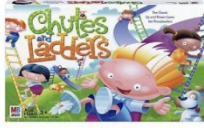

Wooden Alphabet Puzzle
From Toys R Us (\$14.99)
For Ages 3-5

Description: On each letter piece of this puzzle there is a picture of an object or animal that begins with that very letter. With the help of these pictures, your kids can match the letter pieces with their shapes and form a beautiful puzzle!

Your kids could practice and learn:

- Letter recognition
- Letter sounds

Learning Can Be Fun!

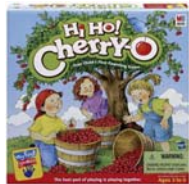

Chutes and Ladders From Toys R Us (\$12.99) For Ages 3-7

Description: Be the first to move your piece from square one to square 100 on the game board--but watch out! If you land on the square that shows you ate too much candy--Ouch!--you get a tummy ache and slide down a chute to a square a few numbers below. But if you end your turn on a good-deed square, such as helping sweep up a mess, you'll be rewarded by a ladder-climb up the board.

Your kids could practice and learn:

- Counting skills
- Recognition of numerals
- How big and small numbers are

Hi Ho! Cherry-O By: Hasbro From Toys R Us (\$12.99) For Ages 3-6

Description: In this game, your kids get the chance to pick cherries from a tree by spinning a spinner that tells them to take either one, two, three, or four cherries. The spinner could also land on the dog, bird, or spilt bucket (all causing you to lose your cherries), which makes this game challenging, educational, but most of all fun!

Your kids could practice and learn:

- Counting skills
- Recognition of number quantities

My First UNO By: Mattel From Toys R Us (\$5.99) For Ages 3-6

Description: This game is much like regular UNO, only the cards are bigger and have pictures of Winnie the Pooh and his friends on them. Kids will take turns matching colors and numbers trying to be the first to get rid of all their cards.

Your kids could practice and learn:

- Counting skills
- Number
- Differences between numbers and how big/small they are
- Basic addition skills
