System Award

Susan R. Komives

Congratulations to Susan Komives as the Florida State University College of Education's 2009 Distinguished Alumna for Postsecondary Systems! The selection committee noted that Susan's "professional success and leadership embodies the missions and goals of the College of Education" at Florida State. A person selected for the award must have publications that reflect scholarship and research that advance the profession and the individual must serve "as a representative of the profession in policy making ... at the ... national level." We all know that Susan reflects the Distinguished Alumna Award through her scholarship on student leadership development, her extensive contributions to ACPA and to CAS, and her numerous outstanding national keynote speeches. Susan earned both her undergraduate degree in Mathematics and her master's degree in Higher Education and Student Personnel Administration from Florida State. Susan will receive the Distinguished Alumna Award from Florida State University during their Homecoming festivities in Tallahassee the last weekend in October 2009.
