Grant Awarded to Support Center of Excellence for Veteran Student Success

The University of Maryland received one of 15 grants given by the U.S. Department of Education to support the growth and development of the Center of Excellence for Veteran Student Success. It is a wonderful new three-year grant that will support the hiring of full time staff and an additional graduate student to work with Veterans Students.

Dr. Marsha Guenzler-Stevens will serve as the Primary Investigator of this initiative. The grant will also support the release time of faculty in Military Sociology to do research on our students. It also supports the development of a transition course for veterans and a leadership course to support veteran student mentors that will work with small cadres of their fellow students who also served. There will be additional financial support for programs, including those sponsored by the TerpVets student group and those that reach out into the veterans community beyond the campus. The University of Maryland was the only institution in the state to receive this grant. Congrats, Marsha on being part of this important project!
