

PROJECT 2

We Are Grateful

Goal

Children explore the roles of four essential community helpers and how they keep everyone safe and healthy.

What

During *We are Grateful*, children investigate each of the four community helper's roles, tools, and place of work.

Why

As children interact with the world around them, they wonder about the important work they see people doing in their community.

Community

Children show their gratitude for the work of a local helper by describing how their role is important to their community.

Family

Together, families learn about the essential helpers in their local community and how they can show gratitude for their work.
